

Texas Stix Gold ATX

Kaci Wellik - # 1

Pitcher / OF

Class of 2012

Of all of the positions on the field, why did you choose to be a pitcher?

I like to be a leader and to have some sort of control over the game.

What is your favorite softball memory?

As a freshman, I hit a home run on my first at bat during my first varsity district game.

What makes softball fun for you?

I have met some really awesome people through softball and I really enjoy playing with teammates I love. I also love the competitiveness of the game.

Which course have you taken in high school that will benefit you the most in college?

I am taking Pre-AP Physics and Pre-Cal right now. I think that these classes will really help me since I hope to major in Forensic Science. I think that the other Pre-AP and AP classes I have taken and am taking will prepare me for college courses, as well.

Would you rather be all-state in softball or valedictorian of your class?

Being valedictorian would definitely allow me to attend a great college. Both would be a great honor and would take a lot of hard work!

What is the best advice anyone has ever given to you?

My mom gave me a quote from the former Texas Governor Ann Richards. I have it hanging on my bulletin board. "This is your life. It is the only one you get. There are no excuses and no do- overs. If you make a mistake or fail at something, you learn from it, you get over it, and you move on. Your job is to be the very best person you can be and to never settle for anything less."

Tell something about yourself that your teammates don't know.

When I was 9 and pitched my first game, I hit 5 players. (My parents kept track.) One player, in particular, I hit 3 times. I sometimes wonder if that girl is still playing softball.

If you bought a car to match your personality, what would it be?

I definitely have zero knowledge about cars. However, I really like the Honda Civic that I drive. I learned to drive in my dad's Acura, though, and I love that Acura. I guess I

could be an Acura because they're cute, fast, and pretty practical.

If someone gave you \$1000 unexpectedly, what would you do with it?

I would save most of it for college expenses, but I would also take my teammates and friends out for smoothies. I'd probably do a little shopping, too.
